A ★ indicates that a dish has some level of spice, meaning that dish is meant to be spicy by creation and if requested mild will still have some heat. The range is 1-5 ★. 5 ★ is the hottest. 1 ★ = 1/4 tsp. of chili powder. The first 5 stars are free, any additional is 10¢ per star. One star does not mean mild. Any requests above 5 stars must be consumed at your own risk - no refunds. If you are unsure what spice level you can handle we can prepare most dishes with spice on the side. Though we can measure the amount of spice, we cannot measure the degree. A chili's heat level depends on its growing conditions, location grown and age, so heat levels may vary each visit. There is no such thing as a star system in Thailand. This is something we do to accommodate those unfamiliar with Thai cuisine. We recommend to those unsure of what spice level you can handle, please enjoy our food as Thais do and add the chili powder on your own.
